

**ANIMAL WARRIORS**  
CONSERVATION SOCIETY

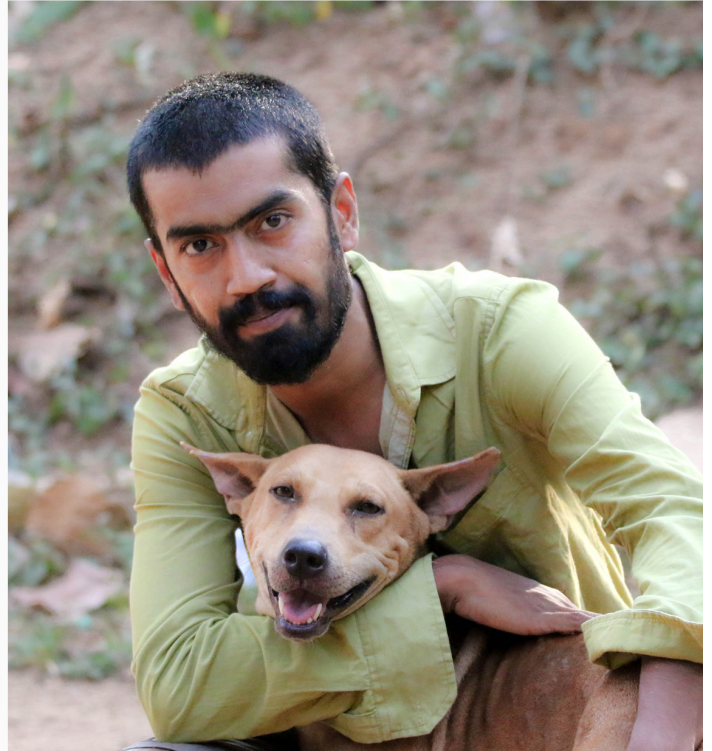

**ANNUAL REPORT | 2019**

## WHO WE ARE?

Celebrating the themes of modern era, one's agenda lying on the terms of self-development. On such a phase, a profounder – Pradeep Nair with a greater interest to bring balance on earth by Conservation ignited many Conservationists to drag a thin balance between humanity and Wildlife Conservation by initiating a non-profit organization known as Animal Warriors Conservation Society to help animals in distress focusing on bigger picture on ecology conservation.

**Founder President  
Pradeep Nair**

**An animal activist having more than 16 years of experience in protecting/rescuing animals in distress, initiated a proposal to attain Conservation by forming an organization which officially got registered as Animal Warriors Conservation Society. Besides his achievement of his astonishing career, he had set a path to form integrity in between animal protection and wildlife conservation. From a team count of 3 to an increase in count to 25 Dedicated warriors with additional volunteers organized various events on a zeal to preserve nature.**

January

## Awareness

### Community Awareness on Snakes

Animal Warriors Conservation Society help a community awareness program at Golden Palms Colony, Hyderabad to mitigate snakes. We focused mainly on First-Aid and how to avoid snakes to venturing into colony. We took opportunity to make people understand the importance of Snakes to humans.

February

## Conservation

### Manja cleanup drive at Kokapet

Post Makara Sankranti our team assessed Kokapet where a major Kite festival is conducted every year. We conducted a clean up drive as the whole area is covered in Manja (Nylon Thread) which is banned by National Green Tribunal. This is a non-biodegradable material which kills scores of birds each year. Our team could collect 300 Kilograms of Nylon thread from trees and landscape. Later we carefully disposed the material .

March

## Awareness

### Urban wildlife Conservation

Animal Warriors Conservation Society gave an awareness talk about “Urban Wildlife Conservation” in Hyderabad Central University. Hyderabad Central University is one of the best places in city sheltering very good number of wildlife species. Through this event we could encourage students of University to understand the importance of conserving the pristine wildlife habitat.

March

## Conservation

### Bring Back Sparrows

House Sparrows once a common species among human habitats are becoming a rare site. The main reason for this rapid urbanization. This is making house sparrows hard to find nesting sites in concrete structures. Animal Warriors Conservation Society initiated a distribution of Free Sparrows Nest boxes using reusable materials. We distributed around 56 free nests boxes.

April & May

## Conservation

### Water Bowl for Birds

Water is basic necessity for all life forms. Harsh Summers are becoming tough time especially for wildlife. Animal Warriors Conservation Society's Water Bowl for Birds initiative is made to help birds around the city to beat the heat. We distributed around 150 free water bowls for this summer to encourage community involvement in wildlife conservation.

June

## Conservation

### Lake Cleanup Drive

Due to irresponsible waste disposal many lakes are being polluted by plastic waste. These plastics turn into death traps for many migratory birds. Animal Warriors Conservation Society plays major role in habitat protection by conducting clean up drives. We cleaned Ameenpur lake, which is India's first lake to be proposed as bio-diversity heritage site. We involved locals and schools making it a community based conservation effort.

July

## Conservation

### Habitat Restoration

Ameenpur lake attracts thousands of migratory birds. Due to severe urbanization this lake doesn't have good trees for birds to nest or roost. So Animal Warriors Conservation Society initiated a plantation drive with full grown native plants ensuring good growth rate to recover the lost habitat. We planted around 60 trees which are meant to serve the purpose.

August

## Conservation

### Nature Club

Ensuring a strong community involvement in Nature Conservation Animal Warriors Conservation Society launched Nature Clubs in Gated Communities around Biodiversity rich habitats. Through this we conducted various events like butterfly parks, Mowgli Walks and Drawing competitions etc.

August

## Rescue

### Kerala Flood Relief

Torrential rains has caused kerala face the worst flood in history , killing over 400 people and countless animals . Govt of kerala evacuated people from the flood hit areas to safety . Many animals pets and stray got stranded in flooded areas. No food no water they waited desperately for help .

Animal Warriors Cpnservation Society reached kerala to save as many animals as possible . This year we stationed at Nilambur region where a major landslide happened killing 56 people and many animals. Many tribal settlements in forest region took massive hit forcing people to evacuated abandoned their pets and livestock. We provided food and fresh water to around 170 animals in flooded settlements. We helped Kerala Forest Department in rescuing a abandoned elephant calf.

Elephant Calf Rescue

Donating cattle food to farmers

Scaling through rough path

September

## Awareness

### Mowgli Walk

Children are future conservationists if they are introduced to Nature conservation at young age, Animal Warriors Conservation Society with an innovative thought making this possible. We conducted a Nature walk with 32 young kids. We passionately call this event as “Mogli Walk”. By this walk these kids enjoyed the company of Nature, and learnt importance of Conservation.

October

## Awareness

### Drawing Competition for Kids

Art is thought provoking emotion. Animal Warriors Conservation Society conducted a drawing competition for kids with the theme Nature. 14 Kids participated in this event and surprised us by expressing their love for nature through cute art.

October

### Awareness

## Sustainable Lifestyle Talk

Sustainable lifestyle can really bring a huge impact on planet earth. Animal Warriors Conservation Society actively participate in community awareness events. We gave a talk on basic tips to lead a Sustainable Lifestyle to motivate people to become a part of Nature Conservation

October

### Awareness

## First-Aid & Rescue Training

Animal Warriors Conservation Society is an active on field team rescuing Wildlife and Strays which are in need of help. We regularly conduct training to aspiring animal rescuers to have in-depth knowledge on handling and treating injured animals.

November

## Conservation

### Ghost Nets Cleanup Drive

Ghost Nets are fishing nets abandoned by fishermen. These nets often act as death traps killing many wildlife. Osmansagar is a major lake and very good habitat for migratory birds. As its major commercial fishing site, tonnes of ghost nets lay around killing many birds annually.

Animal Warriors Conservation Society cleaned this lake collecting 300 Kilograms of disposed fishing nets

# Resue Report

Animal Warriors Conservation Society with a professional tactical team actively involve in saving animals from most dreadful situations. We use extreme precautionary methods and tactical approach to save an animal which is trapped or stuck in wells or borewells or buildings. We save birds which are stuck by Manja in trees. With a proper teamwork we save birds who's beaks stuck by plastic disposed in lakes.

**558** animals saved

**202** wildlife rescued

**170** animals from floods

**186** tactical rescues
